

Syphon tube

Model : A030

Spec. sheet no. AD00-03

Service intended

It is used for protecting the pressure gauge from the effect of hot process media like steam, and it also can reduce the effect of rapid pressure surge.

Standard features

Max. working pressure

Stainless steel

- Code B, C : Up to 25 MPa at 20 °C, G $\frac{1}{4}$ "
(Not available with flange type)
- Code M : Up to 60 MPa at 20 °C, G $\frac{1}{4}$ "

※ This product's Max. working temperature could be varied depending on its working pressure and temperature.

Model : Mini
