## 4. Operation of Scale Type

1. Install the equipment.
2. Connect the impeller rod to chuck firmly.
3. Insert a plug into the outlet
4. Turn on the switch.
5. Set speed by turning volume. (Scale)
6. After experiment, without exception, set the volume in Min. and pull the plug out the wall.

Torch blinking means the motor is loaded too much.  
The Motor pauses automatically after blinking for 10 sec.  
After solving problems, run your experiment further.
